To whom it may concern

Anthony Jardim has performed close protection duties for Professional Protection Consultants cc on numerous occasions. He has provided close protection for high profile VIPs who have been under high threats and high risks.

During his close protection duties I have received nothing but praise from the Executives that he has provided close protection for. He has provided close protection for both male and female VIPs and has always been the chauffeur due to his advanced driving skills. He has doubled-up as chauffeur / personal escort sections as well as chauffeur / bodyguard on numerous operations.

He has performed single bodyguard duties (one-on-one) as well as team duties involving advance parties, escort sections, residential security, chauffeurs and bodyguards.

Anthony is a recognised Close Protection Unarmed Combat (CQB) Instructor at the Johannesburg Technical College on a "Close Personal Protection and Security Management" course – course number NFCPP 51111999. His martial arts and close protection knowledge and skills as well as his interpersonal skills make him an excellent instructor.

From the close protection and instruction duties done by Anthony for Professional Protection Consultants cc, I would highly recommend him for international and national close protection and security management duties.

Yours sincerely,

STEVEN MILLER

Director - Training and Special Operations
